Hi Kim

Yes, it should be there. We sent a hard copy last week.

Matt

Hi Matt:

Are you submitting this in hard copy? There are about 400 pages to this document, so if you could send a hard copy it would be appreciated.

Thanks.

Subject: Estabrook Elementary School Plan for the Removal of Building Related PCBs

Hi Kim

Attached please find the Estabrook Elementary School Plan for the Removal of Building Related PCBs. Lexington is planning to include the EPA Plan Approval Letter and EPA Approval Conditions as part of the bid package for the remediation contractors.

They are looking to start the bidding process relatively soon so they have time to allocate all the funds necessary for the remediation and disposal. Any efforts by EPA to expedite the approval process will be greatly appreciated by Lexington and the Project Team.

We incorporated the items we discussed during our meeting and included the results of additional characterization samples we collected since the meeting. Feel free to contact me directly with any questions you may have about the plan.
